International Trauma Life Support for Emergency Care Providers, 7th edition

John Campbell, MD, FACEP
and Alabama Chapter, American College of Emergency Physicians

Internationally recognized at the forefront of trauma education for all levels of emergency care, the 7th edition of International Trauma Life Support has been updated and refined to reflect the latest research and the most effective approaches in trauma patient care. New material has been added including information on hemorrhagic shock, blast injuries, and tourniquet procedures as well as updates to the assessment sequence. This new edition now features key terms, updated art and photos, as well as new case presentations and conforms to the most recent AHA/ILCOR guidelines for artificial ventilation and CPR. Delving deeper into emergency trauma skills by providing the “how” and the “why” behind all methods, this new edition continues ITLS’s tradition of excellence to ensure learners get the most out of the few minutes they have to save their patients’ lives.

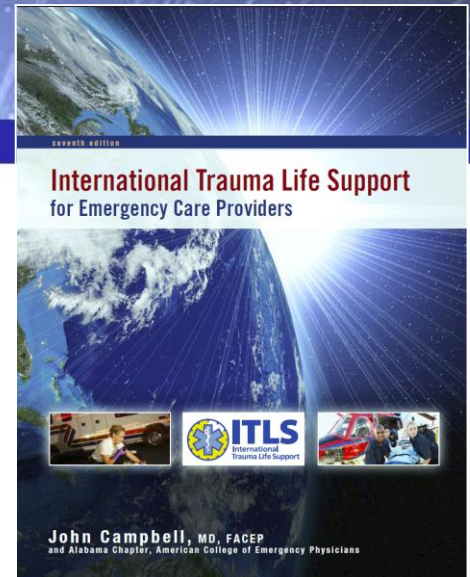

New to this Edition

- ◆ Conforms to the **newest AHA/ILCOR guidelines** for emergency cardiac care
- ◆ Updated and refined to reflect **the latest and most effective approaches** to the care of the trauma patient
- ◆ The discussion of **hemorrhagic shock** has been updated with the experience of the military during the recent conflicts.
- ◆ **Recent studies** on chest wall thickness and the current controversy over which site to use to decompress a tension pneumothorax are discussed.
- ◆ Procedures have been added for use of a **tourniquet** and use of **hemostatic agents**.
- ◆ Insertion of an IO needle by use of the **EZ-IO system** has been added. A discussion of blast injuries has been added.
- ◆ The latest recommendations for **post-exposure prophylaxis** have been updated.

Key Features

- ◆ The addition of **Key Terms** in the margins.
- ◆ **New case presentations** for all chapters.
- ◆ **New photos and updated illustrations**
- ◆ **Hands-on exercises**—help learners practice their knowledge and skills on simulated patients.
- ◆ Blackboard and CourseCompass **learning management systems** now available for the 7th edition.

- ◆ **New Resource Central solution** on www.bradybooks.com for **interactive learning exercises** on topics discussed. Students will find quizzes, additional web links, games, videos, and more. Through Resource Central, this text also offers instructors a **full complement of online supplemental teaching materials** such as test banks and PowerPoint lectures to aid in the classroom.
