Paramedics • Nurses • EMTs and first responders • Emergency physicians • Trauma surgeons • EMS administrators • EMS educators

**REGISTER:
ITRAUMA.org/
conference**

FRIDAY, NOVEMBER 5

**Conference program is presented in the Central Time Zone*

11:00 am - 11:10 am CT

Welcome & Introduction

Michael Rushing, BSN, RN, NRP, CEN, CPEN, CFRN, TCRN, CCRN-CMC

11:10 am - 11:55 am CT

ITLS Update

Tony Connelly, BHSc, EMT-P, QAM, PGCEi

DESCRIPTION: The ITLS Update will provide highlights of the year, the announcement of the 2021 Board of Directors election results and the conferring of ITLS' annual awards. Chapter and training centre leaders will also have the opportunity for open discussion with members of the Board of Directors and Editorial Board.

11:55 am - 12:05 pm CT

Break

12:05 pm - 1:05 pm CT

STaT KiD: Shock Treatment and Trauma - Kids in Distress!

David G. Nelson, MD, FAAP, FAAEM

DESCRIPTION: This session will address the current treatment recommendations for hemorrhagic shock in children of trauma. We will discuss the use of TXA (tranexamic acid), as well as the changing transfusion trends being seen in adult resuscitations and their applicability to pediatric patients. Also, has "damage control resuscitation" made it from principle to practice? We will review the literature of all these issues and have testimonials from experts in the field, while using a case-based approach.

1:10 pm - 2:10 pm CT

Guns, Gels, Kings, Drills & More: What They Don't Teach You (but really should) in PALS & ACLS

Scott DeBoer, RN, MSN, CPEN, CEN, CCRN, CFRN, EMT-P

DESCRIPTION: Boys and their toys; playing with power tools; medicine meets machines. All of these topics will be discussed as they pertain to emergency care. There are lots of "toys" out there, but what the books teach and more importantly, what they don't teach (and really should), are covered in this fast-paced research meets reality review of all things alternate airway and intraosseous!

2:15 pm - 3:15 pm CT

Wrong Side of the Fang - Up-to-Date Truths & Care for Snake Envenomation

Benjamin N. Abo, DO, EMT-P, FAWM

DESCRIPTION: Envenomation's are a traumatic disease, but for years have been incorrectly treated as a surgical disease. Globally, a significant number of people are killed or maimed by envenomation and not treated with up-to-date, evidence and experience based medicine but with status quo and hearsay. In this talk we will visit up to date envenomation care of snakebite envenomation for both the pre-hospital and hospital practitioners. Hear the proper care from the medical director of Venom Response Team as seen on TV's "Swamp Wars".

3:15 pm CT
